

Become a Money Magnet

Clearing your blocks to abundance with EFT

Have you attended prosperity seminars, read the financial self-help books, but find no improvement in your finances.

Do you already “know” what you need to do to improve your finances - positive affirmations, visualisations, positive thinking, etc – but can’t seem to do it long enough for results to appear?

Many Law of Attraction teachings tell you what you MUST do to attract the money into your life, but they seldom tell you how you can get there. “*Think rich... how?*” And it is only those with indomitable willpower and persistence who may actually shift their vibrational state long enough for money to appear in their reality.

Working on the conscious level is a challenging process because the power of the unconscious mind is so much greater than the conscious mind.

Here’s the good news... It doesn’t need to be that hard.

Imagine releasing those unconscious blockages within minutes – ***easily, naturally and effectively.***

This is possible with EFT – the DIY acupressure technique that can immediately shift your vibrational state into a higher one – the kind that attracts money like water into your life!

“I am very privileged to experience the wonders that EFT brings. This is an effective and painless method of healing. EFT consists of a lot of tapping and no medication is required! I strongly recommend EFT to everybody.” – Alice, financial planner

In this 6-hour workshop, you will:

- Discover what is your relationship with money (so you *think* you love money... we will see!)
- Find out how can you and money fall deeply in love with each other
- Go through specially designed EFT processes to open your energetic space to welcome money in!
- Learn simple protocols that will keep your income constantly growing

“I am calmer in doing my trading, which is important because high risk is involved and I need to stay cool. After coming for Prosperity with EFT, all my positive energy started to flow in and I got a 50 K return in my trading, which I haven’t seen for a few years.” - Amerlin, full-time trader

“My sessions with Lena have been more transformative than any other kind of therapy I have sought out in my life. I am struck by Lena's spot-on sense of intuition and her wonderful ability to unravel core issues that underpin many behavioural traits. I believe the key is finding a therapist who has a deep sense of empathy and is willing to go the extra mile to develop a connection with the client; and I definitely say that Lena is one of the rare therapists who embody such qualities.”- Deana Kanagasiagam, graduate student

AND an “Attract Abundance” audio tap-a-long which you can listen to all day long to keep your radar tuned into the abundance that you are looking for – worth \$11
